The Chairman further informed the Meeting that Ms. Maliwan Phahuwattanakorn of NPS Siam Group Co., Ltd., the auditor to the company, honored the Meeting with her own presence, together with Ms. Kamoltat Jitrkankha, to participate in the meeting.

In addition, the Chairman announced that to ensure the transparent and lawful manner of the AGM according to the law and Articles of Association, the Company has invited the representative from S.K. & Partners Lawyers Ltd., Mr. Phuwadet Chitkaeo, to perform the role of an inspector to monitor the transparency and legitimacy as well as to inspect the vote count for this meeting.

Then, the Chairman asked Mr. Ekkamol Emradee, Senior Executive Vice President, Operation Unit 4 of the Company, to explain details of the meeting and vote counting procedures.

Mr. Ekkamol Emradee, Senior Executive Vice President, Operation Unit 4, subsequently informed the shareholders that the Company has observed good corporate governance, carrying fair and equitable treatment to all shareholders. With regards to information disclosure and notice of the Invitation to 2016 AGM, apart from the commonly-practiced method to deliver the invitation to AGM to all shareholders via registered mail according to the Company's Articles of Association, the Company also publicized the notice and meeting documents in advance by posting them on the Company's website -- www.iec.co.th -- since March 30, 2016 in order to provide more information access channels to shareholders or other interested investors.

And for this meeting, the Company has hired OJ International Co., Ltd., a professional and experienced service provider in registration and data processing arrangement in shareholder meeting for top registered companies in SET, to be the attending registrar and evaluate the voting in each agenda so that the meeting can be carried out with precision and speed.

In addition, the Meeting was also informed that voting rules and procedures were already explained in the Enclosure No. 10 of the Invitation to 2016 AGM. Then Mr. Ekkamol Emradee further announced that in terms of the voting practice, during the registration session, the Company had issued voting tickets to shareholders for casting their votes. In terms of the voting in each agenda, Clauses 14 and 35 (Bi) of the Articles of Association state that one share is eligible for one vote. Thus, voting can be conducted in two cases as follows:

1. Shareholders attending the Meeting in person: those who disapproved recommendations made by the Board of Directors or abstained their votes for each agenda, after casting vote onto the voting ticket, were required to raise their hands in resolving the agenda so that officers could reach them to collect their voting tickets. In the event where the attending shareholders did not raise their hands, it was deemed that such shareholders approved the recommendations made by the Board. After that, voting results would be processed by which votes for disapproval and abstention would be collectively deducted from the total votes in presence in each agenda and the remaining would be considered the votes for approval of such agenda. Finally the votes would be announced to the shareholders in each agenda.

In this regard, Mr. Ekkamol also noted for the Meeting's attention that **for Agenda 6 in appointment of directors, in replacement of directors with expiring tenure**, where three directors were about to leave their offices due to terms and the Company proposed re-election of such three directors, and **for Agenda 7 in appointment of two additional directors**, shareholders were allowed to cast their votes **for each individual director**. After voting, the Chairman would announce the results for each director for the Meeting's further acknowledgment. Therefore, **only for Agenda 6 and Agenda 7** that the Company would collect voting tickets from all attending shareholders **who cast votes for approval, disapproval and abstention** so as to follow good corporate governance practices.

2. Proxies: Form A Proxies, or those who were conditioned to vote after the explanation in each agenda, followed the same rules as that of the shareholders attending in person.

Form B or Form C Proxies, or those who were conditioned by grantors to vote in advance, prior to each agenda, were not required to vote as the Company had recorded their votes designated by the grantors. Unless the grantors did not state their intention in each particular agenda or did not state clearly, the proxies were allowed to vote upon their discretion, in the same manner as the shareholders attending in person.

When the voting was done, the Chairman would announce the voting results for each agenda for the Meeting's further acknowledgment.

In collecting the voting tickets for those who would disapprove and abstain, it would take approximately three minutes per agenda. Therefore, they were required to observe the signal made by the Company's officers.

Incidentally, should longer time to count the votes in any agenda be required, the Chairman would ask for permission to announce such voting result in the following agenda.

Additionally, should any shareholders send the unmarked voting tickets for any agendas, the Company would regard that such shareholders voted approval of such agendas.

Should any shareholders or proxies who had already registered but had not yet voted be unable to attend the meeting until its end, they were required to exercise their rights by sending their voting tickets in advance to the officers to count their votes in those agendas.

In the event where the shareholders and proxies did not deliver their voting tickets to the officers, it would be deemed that they voted approval of those agendas.

Furthermore, in the event where any shareholders proposed to change the content for consideration in any agenda in different from the original content of the Board of Directors, the Chairman would ask for an approval from the majority of the shareholders. Those who disapprove or abstain were required to raise hand. If the voting could not be assessed by observation, the Company would use special voting tickets which had already been distributed together with the voting tickets to the shareholders. Those who disapproved and abstained were required to deliver their tickets to the officers so that they would be deducted from the total votes. Finally, the majority of the votes would be taken into consideration.

In this regard, to vote for the agenda whose content had been changed, the shareholders and proxies attending the meeting at that time could exercise their rights to consider and approve upon their discretion. If any shareholder or proxy had sent their tickets in advance to the officers without attending such agenda that some conditions would have been changed, the Company would take into account their original intentions whether they were approval, disapproval or abstention.

For those shareholders who registered to attend the meeting after it had started for a while, their votes would not be included in the agenda which had already been considered and approved before their attending. They were able to vote for the remaining agendas only.

Mr. Ekkamol Emradee further informed the Meeting that should any shareholder intend to raise question or suggestion to the Meeting for any agenda, a kind cooperation from such shareholder or proxy was requested to declare his/her name - surname and status whether he/she was a shareholder attending in person or a proxy in order that the Company could clarify and answer accordingly as well as further record the minutes correctly, according to the generally accepted standard of practices.

In addition, since this meeting consisted of 14 general agendas and another agenda, Agenda 15 for consideration of other matter(s), to be considered, the meeting had to proceed in accord with the order

of the agendas as prescribed in the Notice of Invitation unless the Meeting, with no less than two-thirds of the attending shareholders, required otherwise.

Regarding this, when the inquiries and replies of the general agendas had been completely made accordingly, should any shareholder have additional opinion or suggestion, it was recommended that he/she raise it in Agenda 15. If the proposed matters required further consideration and resolution other than those prescribed in the Notice of Invitation that fell into the category of additional agenda under Section 105, Paragraph 2 of Public Limited Company Act, B.E. 2535 (1992), the resolution and voting procedures had to follow the law that governs such incident. According to Section 105 of Public Limited Company Act, B.E. 2535 (1992), the two voting procedures were as follows:

- (1) There had to be the shareholders holding at least one-thirds of the total subscribed shares altogether voting in affirmation of the matter for general meeting consideration.
- (2) After Procedure (1) had completed, the general Meeting would then cast their votes in resolving such matter to be considered as the Meeting's resolution for such matter.

With this regard, the resolutions of the general Meeting had to be as follows:

- For Agenda 1 and Agendas 3 to 7, the majority vote of the attending and voting shareholders would be taken into account.
- For Agenda 2, for the general Meeting's acknowledgment, voting was not required.
- For Agenda 8, regarding the remuneration of directors, no less than two-thirds of the attending and voting shareholders would be taken into account.
- For Agendas 9 to 14, no less than three-fourths of the attending and voting shareholders would be taken into account.

After that, the Chairman proceeded the AGM following the order prescribed in the Notice of Invitation to 2016 AGM as follows.

Agenda 1 Review and approve minutes of the Extraordinary General Meeting of Shareholders No. 1/2015 dated 14th December 2015.

Dr. Bhusana Premanode, Chairman of the Meeting, proposed to the Meeting to review and approve the minutes of the EGM No. 1/2015 dated 14th December 2015 as per details of each agenda in the copy of the minutes of the EGM No. 1/2015 enclosed and delivered earlier with the Notice of Invitation to the 2016 AGM to all shareholders.

The moderator then informed the Meeting that this Agenda would take into account the majority of the attending and voting shareholders in accord with Section 107 (1) of Public Limited Company Act, B.E. 2535 (1992).

After their review, the general Meeting resolved that the minutes was correct and complete and the attending and voting shareholders unanimously approved the minutes of the Extraordinary General Meeting of Shareholders No. 1/2015 dated 14th December 2015 as proposed in all respects. Voting results were as follows:

- Approved by	73,517,561,568 votes, accounted for	100%;
- Disapproved by	0 votes, accounted for	0%;
- Abstained by	12,056,252 votes, accounted for	-
of the total votes of attending and voting shareholders.		

Agenda 2 The Board of Directors' report on 2015 operating results.

Dr. Attawooth Laohapakdee, Committee and Senior Executive Vice President of Operation Unit 2, reported to the meeting the operating results of the Company and its subsidiaries in 2015 as illustrated in the 2015 Annual Report already distributed to shareholders. The moderator presented with a visual

presentation so that the Meeting could follow easily. In summary, in 2015, the Company and its subsidiaries had:

- The total assets in 2015 of THB 4,498 million, compared with THB 3,891 million in 2014, an increase by THB 607 million or 15.60%.
- The total liabilities in 2015 of THB 1,119 million, compared with THB 1,031 million in 2014, an increase by THB 88 million or 8.54%.
- The total revenue in 2015 of THB 608 million, compared with THB 512 million in 2014, an increase by THB 96 million or 18.75%.

Regarding this, in 2015, the Company and its subsidiaries had the revenue from the sale and service plus the subsidy adder of THB 442.07 million, compared with THB 459.69 million in 2014, a decrease by THB 17.62 million or accounted for 3.83%. This was mainly caused by the fact that in 2015 the Company and its subsidiaries had an increase in revenue from the energy business of THB 213.31 million and a decrease in the information technology business of THB 230.93 million.

- The total expenses in 2015 of THB 660 million, compared with THB 528 million in 2014, an increase by THB 132 million or 25.00%.

Regarding this, in 2015, the Company and its subsidiaries had an increase in the expenses from the sale and management of THB 72.95 million or accounted for 33.65%. This was a result of the increase in expenditures for personnel arisen from additional subsidiaries as well as the non-manufacturing costs arisen from machinery maintenance expenses.

- However, the Company and its subsidiaries had the net profit (loss) margin of the Company in 2015 of THB 0.14 million compared with the net profit of the Company in 2014 of THB 13.41 million, a decrease by THB 13.27 million or 98.96%.
- In terms of the separate financial statement of the Company (parent company only), the Company had the net profit margin in 2015 of THB 25.92 million compared with THB 22.34 million in 2014, an increase by THB 3.58 million or 16.03%.

The moderator further informed the Meeting that this Agenda was merely for the Meeting's acknowledgment. Therefore, voting was not required.

After that, Mr. Adirek Phiphatpattama, Right Protection Volunteer, the proxy of Thai Investors Association, made a comment and inquiry to the Meeting that on 19th December 2014 the Board of Directors resolved to invest partially in the construction project of waste-to-energy and biomass power plants and plastic recycling in Ban Bueng District, Chonburi Province, in the amount of THB 172.50 million. It was also known that the Company had already spent approximately THB 156.22 million to invest in this project. However, when half year had passed, i.e. on 25th May 2015, the Board of Directors had a resolution to revoke the entire project by informing that the cancelation was due to the fact that if the project was to be proceeded, there would be an additional expense of about THB 850 million. In addition, the Company needed to invest in other projects which were more urgent. Therefore, it made this resolution to revoke such project while the remaining part was merely to purchase and develop the land for sale. The Company expected that it would be able to sell the developed land within one year from the date of acquisition of such land. Therefore, the following three inquiries needed some explanation. Issue 1: The mistakes that made the Company decided to revoke this project. Issue 2: The preliminary consideration of the project and the Company's thorough calculation of the estimated expenses. Issue 3: The current progress of the sale of the purchased land and the expected selling price.

Dr. Bhusana Premanode, Chairman of the Meeting, gave a response to Issues 1 and 2 that at that time, i.e. in December 2014, the government announced a policy of the transition from subsidy adder system to Feed in Tariff (FiT) system and expected to launch the new FiT system and license registration officially in February 2015. On the contrary, it was apparent that until mid 2015 the government by

the Office of the Energy Regulatory Commission (OERC) still had not issued any license governing electric power. This made the Company turn to review and monitor the changes in public policy as well as to analyze our own investment strategy in the Company's existing projects. Therefore, the Company had to adjust the procedures of such project and instead shifted to focus on the investment in plastic recycling project in Chonburi which did not require OERC's permission to generate and sell electric power. As a result, the Board of Directors agreed to revoke such project. In respond to Issue 3, the Meeting was informed that the arisen expense of THB 156.22 million was the cost of procurement of the land for the project. Just recently, the Provincial Electricity Authority had a project to build its power substation and was interested in such piece of land. This was a good news and strengthened the capacity of the land of the project. Moreover, there were some prospectors recently made proposals to purchase the land.

Then, Mr. Adirek Phiphatpattama, Right Protection Volunteer, the proxy of Thai Investors Association, expressed his concern that according to the 2015 operating results, the Company's performance yielded only a slight profit which was considerably unsatisfactory. Therefore, the Company, by the Chairman, was requested to demonstrate its vision in brief regarding the plans for future operation for the year 2016, the direction in which the business and operations were heading.

Dr. Bhusana Premanode, Chairman of the Meeting, replied that last year, in 2015, the Company experienced some problems with the implementation plans of the power plants in Sa Kaeo and Hat Yai. However, at present, the two power plants had been optimized in terms of efficiency and productivity. As a result, more incomes could be created respectively. In addition, a group of investors from Yunnan, China showed their interests in a joint investment with the Company in Hat Yai project. Furthermore, the government had already issued the Factory Operation Permit (Form Ror Ngor 4) to the Company's plastic recycling factory in Rayong. The test run showed a satisfactory result. This would be another major force that could generate a great revenue for the Company in a short period of time.

A female shareholder commented that the Company was mainly working on large projects. Her concern was that the Company could alternatively turn to not-so-large projects that required lower investment with a faster payback period such as a solar power plant, etc.

Dr. Bhusana Premanode, Chairman of the Meeting, explained that a solar power plant project in Thailand was considerably not worth the investment because the number of IRR percentage was relatively low. In addition, state policies supporting the production of solar energy were quite rare compared with other alternative energy sources. The Company therefore put the emphasis on plastic recycling business which had higher IRR percentage and a faster payback period.

The meeting considered and acknowledged the 2015 operating results as reported.

Agenda 3 Approve the annual balance sheet and profit and loss statements for the year as ended 31st December 2015, already audited by the auditor.

Dr. Bhusana Premanode, Chairman of the Meeting, proposed that the Meeting consider and approve the balance sheet and profit and loss statements for the year ended 31st December 2015, which had been audited by Miss. Maliwan Pahuwatanakorn, Certified Public Accountant Registration Number 4701 of NPS Siam Audit Limited and already delivered to all shareholders beforehand.

The moderator then informed the Meeting that this Agenda would take into account the majority of the attending and voting shareholders in accordance with Section 107 (1) of Public Limited Company Act, B.E. 2535 (1992).

Mr. Surasit Saranworanat, a shareholder and a proxy of other shareholders, made his concern to the Meeting that the construction-in-progress payables for 2015 was reported to be about THB 1,500 million while the financial allocation for the previous year (2014) was reported to be about some ten million baht. However, the financial allocation for 2015 was not included. The auditor was therefore asked about the missing financial allocation. Mr. Surasit further commented that the revised estimates of impairment cost could be observed in the 2015 statement. He also questioned about the calculation

of impairment cost in terms of category of impairment and projects that underwent and would undergo the revision of the estimates of impairment cost.

Mr. Sutee Phongpaiboon, Committee and Chairman of Audit Committee, informed that in every audit in each quarter, the Corporate Administration Division would closely coordinate with the auditor regarding the accounting format. As for the estimates of impairment cost, the Company would consider and determine the appropriate asset impairment according to accounting standards. The Company would then observe the suggestions made by the auditor according to such accounting standards.

Miss. Maliwan Pahuwatanakorn, Certified Public Accountant, further clarified that the financial allocation for 2015 was not included because the interest rate cap was not set due to the completion of the projects of the subsidiaries. Therefore, the interest cap did not appear in the statement. In terms of the estimates of impairment cost, the Company's executives would consider this matter.

After their review, the general Meeting resolved by the majority vote to approve the annual balance sheet and profit and loss statement for the year ended 31st December 2015, already audited by the auditor, as proposed in all respects. Voting results were as follows:

- Approved by	70,043,187,801 votes, accounted for	94.3037%;
- Disapproved by	4,230,838,986 votes, accounted for	5.6963%;
- Abstained by	13,518,329 votes, accounted for	-

of the total votes of attending and voting shareholders.

Agenda 4 Consider and approve omission of dividend for 2015 operating year.

Dr. Bhusana Premanode, Chairman of the Meeting, informed the Meeting that even though for the 2015 operating results the company had a profit margin, when the 2015 net profit was deducted by accumulated loss, statutory reserve and other reserves, the remaining net profit of the Company would be merely THB 10,651,592, which was considerably low. In addition, the Company also needed to finance the operations of the Company, as the working capital and for other operations of the Company. It was therefore deemed appropriate to approve the omission of dividend for the 2015 operating year as proposed.

The moderator then informed the Meeting that this Agenda would take into account the majority of the attending and voting shareholders in accordance with Section 107 (1) of Public Limited Company Act, B.E. 2535 (1992).

After their review, the general Meeting resolved by the majority vote to approve the omission of dividend for the 2015 operating year as proposed in all respects. Voting results were as follows:

- Approved by	73,860,737,011 votes, accounted for	99.0539%;
- Disapproved by	705,438,680 votes, accounted for	0.9461%;
- Abstained by	190,764,728 votes, accounted for	-

of the total votes of attending and voting shareholders.

Agenda 5 Consider and approve the appointment of external auditor and audit fee for 2016.

Dr. Bhusana Premanode, Chairman of the Meeting, declared to the Meeting that in accord with Public Limited Company Act, B.E. 2535 (1992), requiring the general meeting to appoint an external auditor on a yearly basis by recommendation of the Audit Committee. After their consideration, the Board of Directors deemed appropriate to propose to the Meeting to consider the appointment of an auditor for 2016 from the following alternatives:

(1) Ms. Maliwan Phahuwattanakorn, CPA No. 4701;

(2) Mr. Manit Warakitjaporn, CPA No. 7326,

of NPS Siam Audit Limited as the auditor for 2016. One of the above auditors would be appointed to review, audit and give opinions to the financial statements of the Company in 2016. The Meeting was requested to consider capping the audit fee for the Company and its subsidiaries at THB 7,000,000 (seven million baht) as appears in the table below that the Company had illustrated so that the shareholders could consider together.

Comparison of Audit Fee in 2015 and 2016

	Total	6,350,500	4,860,500	1,490,000	31%

Then the moderator informed the Meeting that this Agenda would take into account the majority of the attending and voting shareholders in accordance with Section 107 (1) of Public Limited Company Act, B.E. 2535 (1992).

Mrs. Narumol Chattawan, Executive Vice President, Accounting Division, elaborated that the above figures indicate that the estimates were slightly more than six million baht but the Company would propose the budget of audit fee amounting not exceeding seven million baht. This was to accommodate the additional operations of the Company as well as the new subsidiaries of the Group that might arise in the future.

Mr. Surasit Saranworanat, a shareholder and a proxy of other shareholders, made his concern that as the audit fee in 2016 would be much higher than the fee in 2015, the Chairman of Audit Committee should answer whether the audit fee in 2016 would be appropriate or not.

Mr. Sutee Phongpaiboon, Committee and Chairman of Audit Committee, informed that due to the fact that in the past few years there had been more and more operations of the Company and its subsidiaries. As a result, the auditor had to carry more burden accordingly. In addition, in the near

future, or in 2016, it would be likely that the Group would expand its business and projects a lot more. In comparison with the increased workload of the auditor, the Company deemed expedient to increase the audit fee accordingly.

After their review, the general Meeting resolved by the majority vote to approve the appointment of either:

- (1) Ms. Maliwan Phahuwattanakorn, CPA No. 4701; or
- (2) Mr. Manit Warakitjaporn, CPA No. 7326,

of NPS Siam Audit Limited as the auditor of the Company for 2016. One of them would be appointed to review, audit and give opinions to the financial statements of the Company in 2016. The Meeting was requested to consider and approve the cap of the audit fee for the Company and its subsidiaries at THB 7,000,000 (seven million baht) as proposed in all respects. Voting results were as follows:

- Approved by	65,691,720,421 votes, accounted for	87.8781%;
- Disapproved by	9,061,534,533 votes, accounted for	12.1219%;
- Abstained by	20,260,698 votes, accounted for	-

of the total votes of attending and voting shareholders.

Agenda 6 Consider and approve appointment of directors, in replacement of directors who had completed their term in office.

Dr. Attawooth Laohapakdee, Committee and Senior Executive Vice President of Operation Unit 2, declared to the Meeting that in accordance with Section 71 of Public Limited Company Act, B.E. 2535 (1992) and Clause 15 of the Articles of Association, it is prescribed that at each AGM, one-thirds of the total directors are to leave their office but eligible for re-election.

For this AGM, there were three directors who would retire by rotation, namely:

- (1) Dr. Bhusana Premanode, Chairman / Group President;
- (2) Mr. Sutee Phongpaiboon, Committee (independent) / Chairman of Audit Committee / Chairman of Nomination and Remuneration;
- (3) Prof. Dr. Pairote Sattayatham, Committee (independent) / Chairman of Corporate Governance / Member of Risk Management.

Then the Company proposed the Meeting to consider and reappoint the three persons to continue their directorship for another term in office because they had eligible qualifications, having performed their duties in an efficient manner. Regarding this, the proposal was made according to the recommendation of the Board of Directors and opinion of the Nomination Committee of the Company.

For this Agenda, as it was the appointment of directors, in respect to good corporate governance, the Company opened opportunities for shareholders to cast votes in favor of the director nominee on an individual basis, one nominee at a time. The Company would collect voting tickets from all attending shareholders who casted votes for approval, disapproval and abstention so as to follow guidelines and practices of vote that had been explained earlier.

In this regard, as Dr. Bhusana Premanode was a director who had completed his term in office and the Company proposed the reappointment to continue his directorship for another term in office, he was also a shareholder of the Company, holding 3,682,526,728 shares, accounted for 1.811% of the total paid-up shares. And in respect to good corporate governance, Dr. Bhusana as a shareholder would vote for abstention to approve his own reappointment to continue his directorship for another term in office.

Then the moderator informed the Meeting that this Agenda would take into account the majority of the attending and voting shareholders in accordance with Section 107 (1) of Public Limited Company Act, B.E. 2535 (1992).

After voting had been complete, the Company's staff collected the voting tickets from all shareholders for further process.

After their consideration, the general Meeting resolved by the majority vote to approve the appointment of the three directors who had completed their term in office, including Dr. Bhusana Premanode, Mr. Sutee Phongpaiboon, and Prof. Dr. Pairote Sattayatham to continue their directorship for another term in office as proposed in all respects. Voting results were as follows:

- In the first year (from the date of issuance until end of the first year of the issuance of the warrant) the exercise price would be THB 0.025 (zero point zero two five baht) per share;
